

## FEEDBACK FORM

### Have Your Say!

Argyll and Bute Council (A&B) is working with Rapleys LLP and Inch Architecture & Design to create a Simplified Planning Zone (SPZ) in Argyll and Bute.

A&B intends to bring forward these SPZs to help deliver housing in a remote rural area. This feedback form will give you the opportunity to give your thoughts on the proposals and any suggestions you have for the site.

Please complete this form and leave it with the project team before you leave. Alternatively, please feel free to take this home and complete it before returning by email or post.

Email: [spzab@rapleys.com](mailto:spzab@rapleys.com)

Address: Rapleys LLP, Caledonian Exchange, 19A Canning Street, Edinburgh, EH3 8EG

**Q1) From the information that has been provided today, do you support the implementation of a SPZ for this site? Please explain your reasons.**

---

---

---

**Q2) What do you think are the potential issues of delivering a SPZ on this site?**

---

---

---

**Q3) What amenities would you like to have/see on this site e.g. landscaping, tree planting, street furniture, playground?**

---

---

---

**Q4) How important is it that the self/custom build plots are serviced e.g. includes sewerage, water and electricity? Please give reasons.**

---

---

---

**Q5) What building materials and other design considerations do you think are most appropriate for housing on Mull/Lochgilphead?**

\*NB: In line with new GDPR regulations, information about how we will handle data and our data use policy can be found on our dedicated SPZ website: <https://rapleys.com/consultation/argyll-bute-spz/>

Q6) There are three potential building options:

- 1) 'Off the shelf' housing design - a pre-designed home where you can pick from a range of pre-defined options;
- 2) Entirely self/custom-build - some initial details provided but the individual would organise contractors, architects etc
- 3) A middle ground that provides a template but allows for individual design flexibility i.e. there will be some room to make design choices?

Of these three options, what would be your most preferred? Please suggest other options you believe could work if you can think of any.
