Hi Rob

Please find attached proposed method for the Lower Rainham Road traffic modelling.

Please let me know what you think. Is this going to help to determine the current planning application?

I think it's right to use the Reference Case and the focus on adjacent subnetworks will be . I'm not sure if it has considered any proposed capacity enhancements or note the impact of any improved bus service.

I'm in the office all morning and all day on Thursday and Friday.

Thanks  
Andrew
