Subject: Final Report - Pump Lane / Lower Rainham Transport Impact Report

Hi Robert,

Please find attached the final report.

The report provides:

- a detailed breakdown of how the model trips were generated and distributed,
- the changes to the model since the last version and
- both a detailed analysis and summary of key impacts of the new developments.

The impacts are broken down by subnetworks and sensitivity tests..

We have also exported an extensive amount of model data for review. Please this saved here: https://swecogroup-my.sharepoint.com/:f:/g/personal/dermot_hanney_sweco_co_uk/EuYbO22PQaNBij28xWGSzoIBGoTi6YNsi6W1FcQHcu5rVw?email=robert.neave%40medway.gov.uk&e=4YtCGD . The link will only work for your email. We recommend either you download first before sharing more widely or if you share the email addresses we can add them to the file for access.

Once again, my sincere apologies in the delay in getting this work to you and thank you for bearing with us. I trust our analysis and conclusions are clear on the traffic impact of the new development sites but please don't refrain to come back if you need any further changes or clarifications. Happy to have a catch up call to go through any of the report findings in more detail.

Kind Regards,

Dermot Hanney
Principal Transport Planner
